## Top News

He enjoys all aspects of general practice and has a particular interest in minimally invasive and aesthetic dentistry, using modern techniques to preserve natural tooth structure and create healthy, confident smiles.

**WE ARE DELIGHTED TO INTRODUCE  
ACE MAHRAN  
WHO HAS JOINED OUR TEAM.**

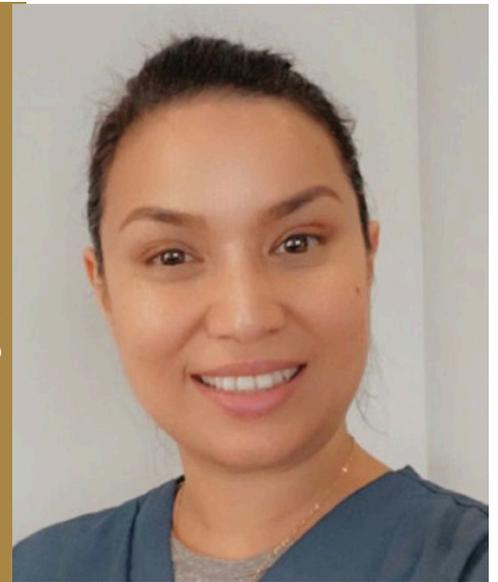

Ace believes in dentistry that is gentle, transparent and tailored to each person; he takes time to explain treatment options, helps even anxious patients feel at ease, and strives to make every visit calm and comfortable while keeping his knowledge up to date through ongoing courses and training.

Existing patients can refer a friend /relative and you will both receive a £20 M&S voucher after their New Patient appointment. T&Cs apply - for full T&Cs please use the link

**We aim to provide a calming and relaxed atmosphere for all.**

Rosh, one of our fabulous Dental Nurses, has passed her BDA Education Certificate in Radiography as part of her continuing professional development. Congratulations Rosh!

## We now have 2 Airflow machines!

Airflow has proved very popular in the Practice so we have invested in a second machine. This will improve access to Airflow for all our patients.

Airflow is a modern, non-abrasive teeth cleaning method that uses a mixture of air, warm water and fine powder to remove surface stains and plaque. It is a gentler alternative to traditional scaling and polishing with superior stain removal.

Country Dental and Implant Clinic

Online booking has arrived at Country Dental!

We work with very nervous and phobic patients, guiding them through their dental journey with patience and care. It can take time but sometimes the most nervous of patients enjoy (almost) coming to see us!

Our staff's contentment is very important to us. We want everybody to feel valued, safe and happy at work. A happy team is essential for creating the comfortable atmosphere in the Practice that we aim for.
